AFA Members and civic leaders, as we approach the 4th of July weekend, it behooves us all to remember in our thoughts and prayers the great men and women who are protecting our freedom all around the world. It is because of their sacrifices, the time they spend away from home, and their dedication to duty that permits us to celebrate this holiday ... and even read this note.

But it's not just their sacrifices that we should remember. The ones that came before our present generation also paid the price - many times in blood - that we may be free and secure.

I have provided a link ... that contains still photos of some those who came before. They are not all inclusive of everyone who has served ... but they represent the service and dedication of one generation of those who came before us.

For your consideration.
