Dear Lieutenant General Dunn,

I wish to thank you and the Air Force Association for organizing Dr. Adam Lowther's briefing on January 22.

As you know, President Obama has an ambitious agenda regarding the U.S. nuclear deterrent. Decisions that are made in the months ahead will have lasting consequences for our national security.

I greatly appreciate your organization's willingness to help educate the people who will be involved in policy making on these issues. I hope you will continue to hold these events in the future.

Thank you again for your valuable service to the nation.

Sincerely,
