

AFA – Assuring America’s Aerospace Dominance

In Recent Years, AFA’s Actions Helped To:

- INCREASE** Pay and allowances across the spectrum of the Air Force family, military construction funds for housing, child development centers and access to quality health care
- BLOCK** Attempts to reduce and/or eliminate the commissary and MWR benefits for service members, an attempt to force dual VA and TRICARE eligible retirees to choose between health care sources
- AUTHORIZE** TRICARE for Life, implementation of the Thrift Savings Plan, and hostile fire pay for federal civilian employees placed in harm’s way
- PURSUE** The elimination of out-of-pocket housing expenses by 2005, creation of the Air Force Memorial, and modernization of the Air Guard and Reserve on par with the active Force
- OBTAIN** The largest increase in basic military pay in ten years, and increased authority for Voluntary Separation Incentive Pay and Voluntary Early Retirement Authority for civilian workforce shaping
- ESTABLISH** A host of incentives for quality of life, quality of service and the revitalization of the force
